Litigation & Valuation Team

Somerset CPAs

Clients using Somerset's valuation and litigation services find that accuracy, objectivity and timeliness are the crucial elements of customer service they receive from Somerset.

Somerset's Litigation & Valuation Team includes Certified Public Accountants and Certified Valuation Analysts. Some of our team members are also Accredited in Business Valuation, a designation given by the American Institute of Certified Public Accountants. Over the years, we have valued hundreds of businesses in a variety of industries and provided expert testimony in federal, state and local courts throughout the state of Indiana. We have a **strong reputation** and **significant experience in testifying**.

Clients want to know that the valuation report, expert testimony or damage analysis provided on their behalf will stand up to challenge whether it is from opposing counsel or the Internal Revenue Service. **Accuracy and thoroughness** are essential, as is presenting the information in a way that makes the best case for the client. Somerset works hard to be open-minded, thorough and fair.

Some of our work actually helps prevent litigation. Having a valuation of a client's business in place has been beneficial at the time of disputes with a minority shareholder, marital dissolutions, buyouts, and estate and gift tax issues. It helps establish a value now that can be used to avoid future speculation and costly litigation.

Whether our services involve litigation or simply a business transaction, we are **passionate** about doing the best job possible for our clients.
